HEATING SOPHISTICATION

HIGH PERFORMANCE GLASS FRONTED HEATER

COMBINING COMFORT CONTROLLED HEAT WITH STYLE...

Tansun the innovators of outdoor heating have taken the concept of heating people to the next level. When planning an entire outdoor space the correct heat balance together with style & comfort is important to achieve the perfect space that you love and more importantly that works!!

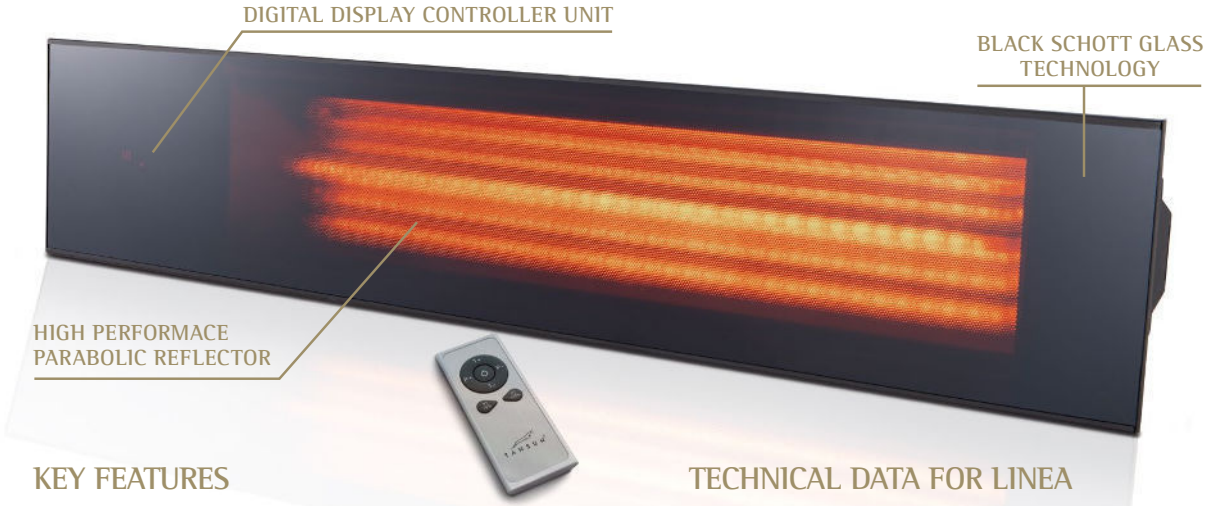

The Tansun comfort heat range offers 100% energy efficiency. Most of all the electrical energy produced is turned into infrared heat, this is due to the high end precision engineering of the products together with the performance of the top of the range ULG (ultra-low glare) heating elements.

Bringing the highest functionality, efficiency together with clean stylish aesthetics makes the new range of Tansun heaters reviled by no other.

All data supplied is an approximate guide only.

Tansun heaters are designed and manufactured for outdoor use. They can be used indoors but should be used in conjunction with suitable energy saving controllers.

Please contact Tansun for controllers for these applications.

LINEA

Add elegance and comfort warmth to your outdoor areas with the Tansun Linea. This stylish heater takes aesthetics to another level offering a minimalistic design that incorporates the latest in integrated energy saving controllability.

The heater is fitted with the latest 2.4kW ULG (ultra-low glare) technology.

The 100cm sheet of SCHOTT glass diffuses the light output and projects a pleasant soft warm glow to dedicated areas in its zone.

The heater is fitted with unique high performance optimised reflector that bounces heat over a larger area. Ideally used where discreet heating is required.

Ideal For: Commercial restaurant & bars, retractable awning systems, discreet intimate dining areas, indoor dining spaces

ENERGY EFFICIENT ENERGY SMART ENERGY EFFICIENT
