COMBINING COMFORT CONTROLLED HEAT WITH STYLE...

Tansun the innovators of outdoor heating have taken the concept of heating people to the next level. When planning an entire outdoor space the correct heat balance together with style & comfort is important to achieve the perfect space that you love and more importantly that works!

The Tansun comfort heat range offers 100% energy efficiency. Most of all the electrical energy produced is turned into infrared heat, this is due to the high end precision engineering of the products together with the performance of the top of the range ULG (ultra-low glare) heating elements.

Bringing the highest functionality, efficiency together with clean stylish aesthetics makes the new range of Tansun heaters reviled by no other.

Technical data and product subject to change without prior notice. Dimensions exclude brackets. Tansun heaters are designed and manufactured for outdoor use. They can be used indoors but should be used in conjunction with suitable energy saving controllers. Please contact Tansun for controllers for these applications. All data is an approximate guide only.

BAHAMA ULTRA RC

The Bahama Ultra RC is an IP Rated Weatherproof heater, designed for exterior installations that offers full controllability to the user. This heater is fitted with multiple heat settings which also include a timer function that can be controlled by the remote handset (in the box).

This high powered model is available in 1.5kW & 2.0kW variations. The sleek designed lends itself to be installed at low levels under awnings, canopies, parasols, and retractable roof systems. This smart compact heater packs a punch due to the high powered dual ULG (ultra-low glare) technology inside.

Ideal For: Awnings, pergolas, retractable awnings, patios, terraces, hot tub areas, restaurant, bars.
